# WORKSHOP DIGITAL CALIPERS

Large-dimension calipers are equipped with a very precise measuring system and flawless guide of the slider on the beam. This know-how makes them the most accurate calipers available on the market.

The range of IP67 calipers guarantees the highest level of protection against the penetration of dust and liquids. The TLC (TESA Link Connector) system built into all the TwinCal calipers provides the connection of these instruments to a PC for the easy acquistion of measurement data. The unique display housing, protected by a steel plate surrounded with a rubber seal guarantees durability and offers fine sensitivity during measurement.

TWIN-CAL IP67 – Models with Rounded Measuring Faces for Internal Dimensions

– Complete IP67 protection against the penetration of dust and liquids, even when the cable is connected.
– Unique TWIN connectivity concept allowing for upgrade across the range.
